“I am very appreciative of the assistance that I received from 2discover. On my first meeting, my consultant was engaged and really listened to where I wanted to head with my career. I was seeking to move into a Human Resources position and 2discover identified an opportunity where I could apply the current skills I have and also allowing me to develop new skills in the HR field. The service I received from 2discover was to a very high standard. Throughout the recruitment process, they kept me up to date with developments and was very supportive throughout. It has been a very positive experience dealing with 2discover and I am very thankful for the opportunity they have provided to me.”

Bobby Sanghera
Candidate - Business Development Director

“I recently worked with 2discover on securing a long term contract with one of Australia leading banks. Having worked with various recruitment agencies in my established marketing career as a client and a candidate I was pleasantly surprised with the 2discover service approach. From the word go I was never made to feel like just another candidate. As a boutique agency 2discover holds an added advantage to provide their candidates with attention to detail and care. I regularly met and chatted with my account manager, as well as support staff. I was guided through the bank’s many business changes to ensure I was well informed and supported. Like most of the people I met in 2discover, I found the staff to be approachable, warm and compassionate. What impressed me most is their after service care. After completing my contract and securing a permanent role their service value proposition carried through even after I left their “books”. It was a great pleasure to work with 2discover. I have since recommended 2discover to other professional colleagues and I will continue to do so to any company looking for quality service and seeking great results.”

Lili Sta-Maria
Candidate - Marketing Manager

“I am a mature person looking for work, when an associate suggested I contact 2discover. I spoke to the Director, John Leith about finding work. I duly sent off my CV to which he replied promptly and promised that someone would be in touch with me. The next day I got a phone call from a consultant and we spoke for some time and arranged that an interview which suited us both. The consultant was very friendly and helpful and said that there should be no difficulty finding work. He suggested temp work until something permanent turned up, to which I agreed. He mentioned that he did have a job in mind, which would be 7 months and would look into it. Later that day he phoned to say that unfortunately that position was filled but there was another job. He passed me on to another consultant, who phoned and organised for an interview. I was successful and started work shortly after. I have reminded 2discover that I am available for work and that my preference is permanent work. They both assured me that they will let me know when something suitable turns up. I am impressed with the service and hope it continues.”

Leona Cross
Candidate - Personal Assistant

“I feel I need to express my appreciation for the assistance given to me by 2discover to enable me to be successful in gaining a position. 2discover showed not only a high professionalism, but also a friendly and understanding approach at my interview. After working within the Health industry for nearly 20 years, he took on board all my abilities and achievements and assisted me in looking outside the box. By evaluating my needs and taking into consideration my customer service experience, they introduced me to another industry. I also appreciated the way 2discover took on board my earning potential and redirected me from a lower paying placement. They gave me great support leading up to the interview with both emails and ringing up the night before the interview offering advice and support; again called after the interview giving me feedback and an estimated time of their decision.

It has been a very satisfying experience being involved with 2discover, even if I had been unsuccessful this time, I know 2discover would have ensured a quick follow up. It's a pleasure to sit down and point out that an organisation is doing the right thing the right way.”
